

Sewer Impact Fee Application

Kershaw County Utilities 515 Walnut Street Camden, SC 29020 (803) 424-4036

Date: ___ Service Address: _____ Applicant Name (printed): _____ Phone#: _____ Project, Subdivision or Business Name: _____

Type (circle one): Individual Residence - Res. Subdivision - Commercial - Industrial - Other: _____ Number of Lots (if subdivision): ___ TMS#: _____

The applicant desires to discharge sewage into Kershaw County's wastewater collection and treatment system, and agrees:

- 1) Each person seeking to receive a sewer availability letter from the Kershaw County Utilities Department (the "County"), each person seeking to connect a new premises to the System, and each customer seeking to increase its authorized level of discharge into the System shall pay an Impact Fee equal to \$3,500 per Residential Development Unit (RDU) for each RDU represented by the customer's request.
- 2) The Kershaw County Utilities Department shall compute the RDU for each customer or request using standard equivalency criteria promulgated from time to time by the South Carolina Department of Health and Environmental Control and successor agencies. The County reserves the right to review and revise the level at which Impact Fees are set or RDUs are calculated at any time in the future.
- 3) Impact Fees for new developments will become due and will be collected at the time a sewer availability letter is requested for the development, or in the discretion of the County Administrator thirty (30) days thereafter. The County may cancel the sewer availability letter or letters for any development, developer or entity under their joint ownership or control if timely payment for letters issued in advance of payment is not received.
- 4) Impact Fees for premises where no sewer availability letter was required shall become due and will be collected when such premises apply for authorization to connect to the System.
- 5) For existing industrial customers or other customers seeking to increase their permitted discharge volumes into the System, the Impact Fees will become due and will be collected at the time the changes in discharge volumes are contracted for.
- 6) All capacity is calculated using SCDHEC's unit contributory loading guide (Reference; regulation 61-67 appendix A)

Formula for Calculating Impact Fee: Calculated Flow per Day ÷ 300 Gallons per Day= RDU * \$3,500

Example: 1440 GPD ÷ 300 GPD=4.8 RDU's x \$3,500 = \$16,800.00 Impact Fee

Calculate Impact Fee Owed:

Daily Flow: _____ gpd ÷ 300 gpd = _____ RDU's x \$3,500 per RDU = \$ _____ Impact Fee

Applicant Signature: _____ Mailing Address: _____

Amount Owed: _____ Amount Paid: _____ Date Paid: _____

Date: _____
