

NOTICE

Glass Recycling No Longer Available

Due to the lack of glass recycling processors, Kershaw County is no longer able to accept glass as a recyclable item. Although we regret the decision to suspend this service, we were left with no choice but to do so.

All glass should be placed in the compactors along with your regular household garbage until further notice. Kershaw County will continue to seek opportunities for recycling and we will update the citizens of the County if any alternative is found.

Please Note: *Plastic is becoming increasingly difficult to place as well. Unfortunately, plastic recycling may suffer a similar fate to the one we now have with glass recycling if this trend of rising costs continues.*

Kershaw County would like to thank all of our citizens for your efforts to sustain our world through recycling and we apologize for any inconveniences that has been caused by the suspension of our glass recycling program.
